Permanent, no probation

7 FTE

Appointments will be made depending on knowledge and experience

The School of Medicine, University of Dundee, is reinvesting and looking to appoint a number of outstanding clinical and non-clinical researchers, covering the spectrum from basic science through clinical research to more epidemiological and applied research in our key priority areas, who wish to be part of a dynamic multidisciplinary research community with a core purpose to transform lives. Positions will be based on the University's Ninewells Campus, co-located with Ninewells Hospital (one of the largest Teaching hospitals in the UK.)

Your priorities will include:

- Contributing to the international reputation of the School/University of Dundee in one of our key thematic areas and building an independent research programme by securing external research or fellowship funding as a Principal Investigator
- Enhancing the breadth and quality of research in this area and the wider School environment and contributing to its future development
- Delivering a range of high quality academic outputs that have demonstrable wide impact
- Supervising junior colleagues and postgraduate students (PhD, MD, MSc)
- Contributing to the School's research led teaching programmes

Who we're looking for:

- MD/PhD in a relevant subject

- Ability to produce research outputs of internationally excellent quality, and proven ability to generate external funding for research projects
- Ambitious research plans which will be competitive for RCUK, Wellcome, EU or equivalent funding streams and/or for industrial funding mechanisms
- Experience of University level teaching (or equivalent) with clear evidence of learning and teaching competence
- Excellent communication/interpersonal skills
- Evidence of ability and willingness to work collaboratively with others and effective team membership
- Ability to prioritise and balance competing demands
- Willingness to engage with UK and overseas student recruitment

When applying please include:

- A cover letter outlining your suitability for the role
- Your CV
- Your research plan (1-2 pages) covering proposed research over the first three years of the appointment
- Names and contact details of at least three references

Informal enquiries are welcome. Please contact: Medicine-RSO@dundee.ac.uk

The closing date for applications is 26 July 2018

The diversity of our staff and students helps to make the University of Dundee one of the top universities in the UK. Family friendly policies, staff support networks for BME and LGBT staff, membership of Athena Swan and Stonewall, as well a full range of disability services, create an enjoyable and inclusive place to work.
